## Report of the School Board.

FLORENCE E. SMITH	} School Board of New Hampton.
S. J. CLAY	
EVA R. SEAVER	

We, as the school board of New Hampton, have endeavored to maintain good schools this past year. Of course it is hard to please all, but we have done as our best judgement directed.

As far as possible we have obtained teachers from our own town, this of course, is a benefit as well as honor to both town and teacher.

There has not been any change made with the books, for they were in very good condition and all satisfactory so far as we knew.

We do wish to draw your special attention to the absences; it is absurd the way children are kept out of our district schools. In villages where they have from thirty to forty weeks of schooling, they have an officer whose duty is to see that children are kept in school unless on account of sickness; the parents *have to keep their children in school*—that is, between certain ages.

Here in the country we have only twenty or twenty-four weeks—how tired the child gets! and if they have to walk a mile or more, the town of New Hampton has to pay for conveyance. We wonder what they would do if they were put back fifty years and had to go out in the woods and cut the wood for the school room, besides walking a couple of miles!

We have three or four schools in town where we have to maintain a school with not more than three or four pupils, and they do not attend more than half the time. The parents ought to take more interest; they so seldom visit the school-room to see what is going on. It pleases the little ones to know their parents have a desire to come in and see if they have made any progress.

Some of our school houses are in bad condition, and ought to be repaired. The pleasant school-room adds a great deal to make it pleasant for the teacher and scholar.

One of the most essential things for the town to consider, is

to elect the best persons to serve on the school board ; they should be interested in the work, also have plenty of time for the discharge of their duties, and courage to do right ; they should not work merely for the compensation derived therefrom, but for the interest of the town.

We find the wages of the teacher are increasing ; in order to get good teachers we have had to pay seven dollars (\$7.00) per week because they get it in other towns, and we did not purpose to let our best teachers go away.

We hope that the coming year will bring better attendance. Parents, with what few weeks of schooling we have, do not place work first ; give your girls and boys a chance, and try to improve the few opportunities we have back in the country.
